

# CAPABILITIES

## Introduction

TPI is a privately held, veteran owned, small disadvantaged minority business located in Chandler, Arizona with regional offices in Dallas and Salt Lake City. We provide design, engineering, and integration services for most low-voltage systems; having a unique expertise in audiovisual and structured cabling applications.

Established in 2000 with personal funds and no outside investment, TPI has over 30 full-time employees, of which 40% are veterans. We pride ourselves as a go-to company and we work hard to maintain a stellar reputation within our industry. Using our military backgrounds and our training, we approach system design and integration with an emphasis on reliability, ease of use, and adherence to the budget and timelines.
